Operations on Strings

- **Jinja String Variables** are from our Yaml file.
- **Operations or Filters on Strings:**
 - **Index of a string**
 - **Filters Concept**
 - **Syntax:** `{{ variable | filter }}`
 - **Default value for a variable:** `{{ variable | default(data) }}`
 - **Finding the length of a string:** `{{ variable | length }}`
 - **Convert into upper case :** `{{variable | upper }}`
 - **Lower:** `{{ variable | lower }}`
 - **Title:** `{{ variable | title }}`
 - **Capitalize:** `{{ variable | capitalize }}`

Thank you
